 WALT DISNEY WORLD

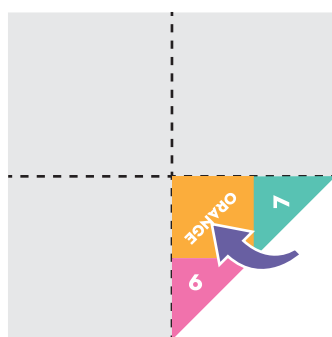

FAB FORTUNE TELLERS

How to Build Your Fortune Teller

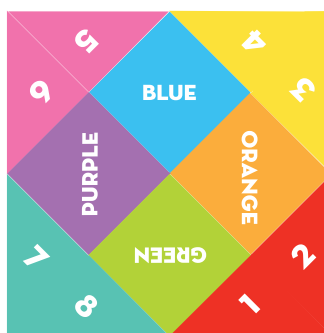

1. Cut out your Fab Fortune Teller along the dotted line.
2. Fold according to below instructions:

Fold, then unfold your Fortune Teller in half vertically and horizontally, creating creases.

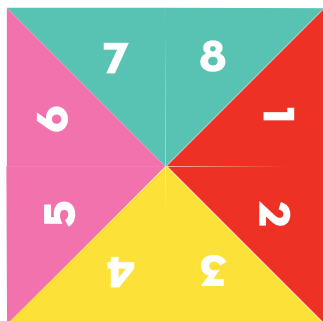

With your Fortune Teller facing down, fold each corner towards the center.

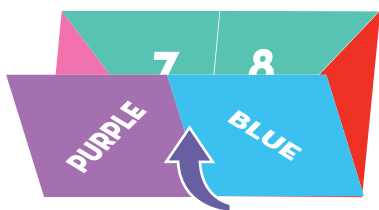

This is the result. Flip it over, so that the characters are facing up.

Again, fold each corner towards the center.

It should now look like this.

Fold your Fortune Teller in half, working your fingers into the pockets underneath each of the named colors.

Work the creases to form four points.

HAVE FUN!

FAB FORTUNE TELLERS

Instructions

Your guests will be endlessly amused by these fun fortune tellers, which will magically reveal their inner Disney character!

1. Cut out the Fab Fortune Tellers along the dotted lines. *Tip: Save time by cutting out these out before the party.*
2. Help the kids fold according to the instructions on the enclosed sheet.
3. To play, hold the four corners of the fortune teller with your pointer finger and thumb on each hand, holding all points together so that only the named colors are shown.
4. Ask the player whose fortune you are telling to pick a color. Use your fingers to open and close the fortune teller, alternatively displaying two groups of numbers inside, while spelling out the color. (Example: Choosing 'BLUE' would cause you to open and close it 4 times - once for each letter)
5. Now, ask the player to choose one of the numbers displayed once their color is spelled out. Again, open and close the game piece while counting out the number the player has chosen.
6. Once more, ask the player to choose a number. This time, unfold the paper containing the number chosen and reveal the player's Disney character!
